

WHAT'S GONNA WORK? TEAMWORK!

Help the Wonder Pets save the baby kitten.

Instructions

1. Print the following page and then cut it into nine rectangular pieces by making three cuts across and three cuts down the page.
2. Tell children that you are going to solve a puzzle together. A kitten is stuck in the water in a place called Venice, Italy. You need their help to put the picture together in the right order to rescue the baby kitten.
3. Put the pieces in a pile and have each child choose one or two, depending on how large your group is.
4. Place any extra pieces on a blank sheet of paper and invite each child, one at a time, to add his or her piece and try to solve the puzzle.

5. Discuss how each person holds a special piece of the puzzle and that you can only solve it if everyone contributes to the effort. That is called teamwork!
6. Help children rearrange the pieces until the picture puzzle is complete. Notice how the Wonder Pets are planning to rescue the kitten. Can the children think of other ideas for helping the stranded kitten?
7. Try solving other jigsaw puzzles using teamwork. You can make this puzzle easier or more difficult by changing the shape or number of puzzle pieces.
